### COURSE OVERVIEW

With full consideration for Unity principles, this Bible study will:

- Provide a review and discussion of the history and evolution of religious thought,
- Compare and contrast the Old and New Testaments of the Christian Bible,
- Discuss the timeline of the New Testament and a study of the Pauline letters and the Gospels,
- Examine the seven keys to understanding the Bible,
- Consider the keys to metaphysically interpreting Scripture.

This weekly course is expected to be completed in four weeks.

This class is intended to instill a desire for a more complete understanding of the Bible and in particular, the New Testament and in so doing, motivate each person to continue seeking spiritual Truths, well beyond this class.
